Introduction

Purpose

The Sartorette Elementary School’s Comprehensive Safety Plan will address the safety concerns identified through a systematic planning process and provide guidance and direction to the principal, faculty, and staff, to create a vision for the school where students are safe to learn.

Requirements

All California public schools serving Transitional kindergarten through eighth grade with over 2,500 students must develop a comprehensive school safety plan, per California Education Code sections 32280-32289

The Comprehensive Safety Plan must be reviewed and updated annually by the School Safety Planning Committee or the School Site Council. Before adopting its comprehensive school safety plan, the school site shall hold a public meeting at the school site to allow members of the public the opportunity to express an opinion about the school safety plan prior to March 1. Education Codes 35294.1 & 35294.6

Annually prior to July 1, the school site will report the status of its school safety plan and include a description of the key elements in their School Accountability Report Card (SARC), pursuant to Sections 33126 and 35256.

The plan must be certified by the members of the School Safety Planning Committee, the School Site Council President, and the school principal, prior to being presented to the Board of Trustees for final review and adoption. The School Safety Plan must be approved and adopted before the State and County deadline of October 15.

The following guidelines may be utilized to support the annual review and evaluation of the individual school safety plan to ensure compliance with the requirements of Senate Bill 187 and Cambrian School District Board Policy 3516, Comprehensive School Safety Plan. The plan shall include: (Education Code 32282)

- Child Abuse reporting procedure
- Routine and emergency disaster procedures including natural disasters, human created disasters or power outages, a procedure to allow a public agency, including the American Red Cross, to use school buildings, grounds, and equipment for mass care and welfare shelters during disasters or other emergencies affecting the public health and welfare, and adaptations for students with disabilities in accordance with the Americans with Disabilities Act
● Policies pursuant to Education Code 48915(c) and other school-designated serious acts which would lead to suspension, expulsion, or mandatory expulsion recommendations
● Procedures to notify teachers and counselors of dangerous students
● Discrimination and Sexual Harassment Policy
● Dress Code
● Procedures for safe ingress and egress
● Rules and procedures on school discipline in order to create a safe and orderly environment conducive to learning
● Hate Crime reporting procedures
● Policies aimed at preventing bullying

Implementation of Plan

The Comprehensive Safety Plan will be distributed to the Cambrian School District Office and will be made available to all staff, students, parents, and the community to review in the school office or on the school website.
Section 2

School site councils shall work in cooperation with local law enforcement agencies in the prevention of campus crime and violence development. (Education Code 32280)

Before adopting the Comprehensive School Safety Plan, the school site council or school safety planning committee shall hold a public meeting at the school site to allow members of the public the opportunity to express an opinion about the plan. (Education Code 32288)

Based on the current year data analysis, the School Safety Planning Committee will identify meaningful safety-related goals for the next school year, as well as strategies and/or programs that will be used to meet those goals and to improve the campus climate.

RTI² Goal: Increase Goal: (Safety)

Sartorette will increase data based decision making by consistently entering referral data into SWIS and reviewing SWIS data in the monthly PBIS meetings.
Current Practices in place:

Tier 1 (Universal Prevention):
- SWIS data is created by entering office referral forms
- Staff use of office referral form

Tier 2 & 3 (Intervention):
- N/A

Issues/Concerns regarding current practices:

Tier 1 (Universal Prevention):
- Inconsistent use of the office referral form across staff members
- Data is not consistent due to differing definitions of problem behavior

Tier 2 & 3 (Intervention):

**RTI² Goal:** Decrease Goal: (Physical Aggression)

Due to a lack of consistent processes to track data around physical aggression in past school years, we anticipate a potential increase this year in the number of incidents reported. The goal for 2020-21 will be to establish a consistent reporting and tracking process in order to establish a baseline of data to set and measure future year goals around decreasing physical aggression.

**Current Practices in place:**

**Tier 1 (Universal Prevention):**
- Supervision
- Love and Logic implementation

**Tier 2 & 3 (Intervention):**
- Students who demonstrate behavior issues were assigned an alternative setting
- CICO

**Issues/Concerns regarding current practices:**

**Tier 1 (Universal Prevention):**
- Lack of consistency across classrooms and grade levels
- Mixed messages on behavior expectations

Child Abuse, Maltreatment, and Neglect

Definition of a Child

Any person under 18 years of age.

Definition of Child Abuse or Maltreatment

*Physical, sexual, or emotional mistreatment or neglect of a child.*

Child abuse or child maltreatment is physical, sexual, and/or psychological maltreatment or neglect of a child or children, especially by a parent or a caregiver. Child abuse may include any act or failure to act by a parent or a caregiver that results in actual or potential harm to a child, and can occur in a child's home, or in the organizations, schools or communities the child interacts with.

Child abuse does not include:

- A mutual fight between minors;
- An injury that is caused by the actions of a peace officer using reasonable and necessary force within the scope of his or her employment;
- An injury caused by any force that is reasonable and necessary for a person employed by or engaged in a school:
- To stop a disturbance threatening physical injury to people or damage to property;
- For purposes of self-defense;
- To obtain possession of weapons or other dangerous objects within the control of a pupil; or
- To exercise the degree of control reasonably necessary to maintain order, protect property, protect the health and safety of pupils, and maintain proper and appropriate conditions conducive to learning.

Mandated Child Abuse Reporters

Mandated reporters are required, by law, to report all known or suspected cases of child abuse or neglect. It is not the job of the mandated reporter to determine whether the allegations are valid. If child abuse or neglect is reasonably suspected or if a pupil shares information with a mandated reporter leading him/her to believe abuse or neglect has taken place, the report must be made.
All Cambrian School District employees are mandated reporters pursuant to California Penal Code Section 11165.7, 11166.5 and the Child Abuse and Neglect Reporting Act, Penal Code 11164.

The report should be made immediately over the telephone to the child protective agency and followed up with a required written report. Cambrian School District employees will not investigate child abuse allegations, nor attempt to contact the person suspected of child abuse or neglect.

Failure to report known or reasonable suspicion of child abuse, including sexual abuse, is a misdemeanor. Mandated reporters are provided immunity from civil or criminal liability as a result of making a mandated report of child abuse.

Child Sexual Abuse

Definition of Child Sexual Abuse

All sexual touching between an adult and a child is sexual abuse. Sexual touching between children can also be sexual abuse when there is a significant age difference (often defined as 3 or more years) between the children or if the children are very different developmentally or size-wise. Sexual abuse does not have to involve penetration, force, pain, or even touching. If an adult engages in any sexual behavior (looking, showing, or touching) with a child to meet the adult’s interest or sexual needs, it is sexual abuse. This includes the manufacture, distribution and viewing of child pornography.

Child Sexual Abuse or Activity Reporting

Voluntary Sexual Activity may or may not be reportable. Even if the behavior is voluntary, there are circumstances where the behavior is abusive, either by Penal Code definition or because of an exploitative relationship, and then this behavior must be reported. If there is reasonable suspicion of sexual abuse prior to the consensual activity, the abuse must be reported.

Mandated reports of sexual activity must be reported to either the Department of Health and Human Services or the appropriate police jurisdiction.

Reportable for any Child:

- Involuntary sexual activity
- Sodomy, oral copulation, penetration of a genital or anal opening by a foreign object, even if consensual, with a partner of any age
- Incest, even if it voluntary. Incest is a marriage or act of intercourse between parents and children; ancestors and descendants of every degree; brothers and sisters of half and whole blood and uncles and nieces or aunts and nephews and adopted children.

Family Code § 2200
Reportable Sexual Activity if a Child is:

- **Younger than 14 years of age and:**
  - Partner is younger than 14 years old, but there is a disparity in chronological or maturational age or indications of intimidation, coercion, or bribery or other indications of an exploitative relationship
  - Partner is 14 years or older
  - Lewd and/or lascivious acts by a partner of any age. *The perpetrator has the intent of “Arousing, appealing to or gratifying the lust, passions, or sexual desires of the perpetrator or the child.”*
  - Partner is alleged spouse and over 14 years of age. *The appropriate authority will determine the legality of the marriage

- **14 or 15 Years of Age and:**
  - Partner is younger than 14 years old
  - Sexual intercourse with a partner older than 21 years of age
  - Lewd and/or lascivious acts by a partner that is more than 10 years older than the child. *The perpetrator has the intent of “Arousing, appealing to or gratifying the lust, passions, or sexual desires of the perpetrator or the child.”*
  - Partner is alleged spouse and over 21 years of age. *The appropriate authority will determine the legality of the marriage

- **16 or 17 years of age and:**
  - The partner is less than 14 years of age
  - Sexual intercourse with a partner older than 14 years of age and there is evidence of an exploitative relationship
  - Partner is the alleged spouse and there is evidence of an exploitative relationship. *The appropriate authority will determine the legality of the marriage.

No Mandatory Report is required if the Child is:

- **Younger than 14 years old and:**
  - Partner is younger than 14 years old and of similar chronological or maturational age.
  - Sexual behavior is voluntary and consensual
  - There are no indications of intimidation, coercion, bribery, or other indications of exploitative relationships

- **14 or 15 years of age and:**
  - Sexual intercourse with a partner older than 14 and less than 21 years of age and
  - There is no indication of abuse, neglect, and/or evidence of an exploitative relationship
- 16 or 17 years of age and:
  - Sexual intercourse with a partner older than 14
  - There is no indication of abuse or evidence of an exploitative relationship

Mandated child abuse reporters are not mandated under the child abuse reporting law to report Unlawful Sexual Intercourse (Statutory Rape) that is consensual except in the situations described above.

**Definition of Statutory Rape in California**

An adult (someone 18 or older) who has sex with a minor (someone younger than 18), even if the sex is consensual.

Emergency and Disaster Procedures and Actions

The Basic Plan: Coordination with Local, State, and Federal Agencies

The Basic Plan addresses the Cambrian School District responsibilities in emergencies associated with natural disaster, human-caused emergencies and technological incidents. It provides a framework for coordination of response and recovery efforts within the District in coordination with local, State, and Federal agencies. The Plan establishes an emergency organization to direct and control operations at all sites during a period of emergency by assigning responsibilities to specific personnel.

The Basic Plan:
- Conforms to the Federally mandated National Incident Management System (NIMS), State mandated Standardized Emergency Management System (SEMS) and effectively restructures emergency response at all levels in compliance with the Incident Command System (ICS).
- Establishes response policies and procedures, providing Sartorett clear guidance for planning purposes
- Describes and details procedural steps necessary to protect lives and property
- Outlines coordination requirements
- Provides a basis for unified training and response exercises to ensure compliance

Requirements

The Plan meets the requirements of Santa Clara County’s policies on Emergency Response and Planning, the Standardized Emergency Management System (SEMS) Operational Area Response, and defines the primary and support roles of the District and individual schools in after-incident damage assessment and reporting requirements.

Objectives
- Protect the safety and welfare of students, employees and staff
- Provide for a safe and coordinated response to emergencies
- Protect the District's facilities and properties
- Enable the District to restore normal conditions with minimal confusion in the shortest time possible
● Provide for interface and coordination between sites and the District Emergency Operations Center (EOC)
● Provide for interface and coordination between sites and the County or city EOC in which they reside
● Provide for the orderly conversion of pre-designated District sites to American Red Cross shelters, when necessary

Schools are required by both federal statute and state regulation to be available for shelters following a disaster. The American Red Cross (ARC) has access to schools in damaged areas to set up their mass care facilities, and local governments have a right to use schools for the same purposes. This requires close cooperation between school officials and ARC or local government representatives, and should be planned and arranged for in advance.

Authorities and References: State of California

● **California Emergency Services Act** (Chapter 7, Division 1, Title 2, California Government Code): The Act provides the basic authorities for conducting emergency operations following a proclamation of Local Emergency, State of Emergency, or State of War Emergency by the Governor and/or appropriate local authorities, consistent with the provisions of this Act.

● **California Government Code, Section 3100, Title 1, Division 4, Chapter 4.** States that public employees are disaster service workers, subject to such disaster service activities as may be assigned to them by their superiors or by law. The term "public employees" includes all persons employed by the state or any county, city and county, state agency or public district, excluding aliens legally employed.

  ○ The law applies to public school employees in the following cases:
    ■ When a local emergency is proclaimed.
    ■ When a state of emergency is proclaimed
    ■ When a federal disaster declaration is made

  ○ The law has two ramifications for School District employees:
    ■ It is likely that public school employees are pressed into service as Disaster Service Workers by their superiors, and may be asked to do jobs other than their usual duties for periods exceeding their normal working hours.
    ■ When pressed into disaster service, employees’ Workers’ Compensation Coverage becomes the responsibility of state government (OES), but the school pays their overtime pay. These circumstances apply only when a local or state emergency is declared.

  ○ States that (the Governor’s Office of Emergency Services has stated) inadequately trained school staff render school officials potentially liable for acts committed or omitted by school staff acting within the scope of their training during or after a disaster. (Sub Sections 835-840.6).

  ○ It requires that school districts be prepared to respond to emergencies using SEMS. (Section 8607, the Petris Bill).
California Civil Code, Chapter 9, Section 1799.102: It provides for "Good Samaritan Liability" for those providing emergency care at the scene of an emergency. ("No person, who, in good faith and not for compensation, renders emergency care at the scene of an emergency, shall be liable for any civil damages resulting from any act or omission. The scene of an emergency shall not include emergency departments and other places where medical care is usually offered.")

California Education Code, Sections 35295-35297 (The Katz Act), Section 40041, 40042: Requires that a school site disaster plan outline roles, responsibilities, and procedures for students and staff. It also requires that the school site emergency management organizational structure comply with SEMS, Title 19 Section 2400, and be ready for implementation at all times.

California Emergency Plan: Promulgated by the Governor, and published in accordance with the California Emergency Services Act, it provides overall statewide authorities and responsibilities, and describes the functions and operations of government at all levels during extraordinary emergencies, including wartime. Section 8568 of the Act states, in part, that "...the State Emergency Plan shall be in effect in each political subdivision of the state, and the governing body of each political subdivision shall take such action as may be necessary to carry out the provisions thereof." Therefore, local emergency plans are considered extensions of the California Emergency Plan.

Definition of an Incident

An incident is an occurrence or event, either human-caused or caused by natural phenomena, that requires action by emergency response personnel to prevent or minimize loss of life or damage to property and/or natural resources.

- Incidents are usually a single event that may be small or large. They occur in a defined geographical area and require local resources or, sometimes, mutual aid. There is usually one to a few agencies involved in dealing with an ordinary threat to life and property and to a limited population. Usually a local emergency is not declared and the jurisdictional EOC is not activated. Incidents are usually of short duration, measured in hours or, at most, a few days. Primary command decisions are made at the scene along with strategy, tactics, and resource management decisions.

Definition of an Emergency

The term emergency is used in several ways. It is a condition of disaster or of extreme peril to the safety of persons and property. In this context, an emergency and an incident could mean the same thing, although an emergency could have more than one incident associated with it.

- Emergency is also used in Standardized Emergency Management System (SEMS) terminology to describe agencies or facilities, e.g., Emergency Response Agency, Emergency Operations Center, etc.
○ Emergency also defines a conditional state such as a proclamation of "Local Emergency". The California Emergency Services Act, of which SEMS is a part, describes three states of emergency:
  ■ State of War Emergency
  ■ State of Emergency
  ■ State of Local Emergency

**Definition of a Disaster**

A disaster is defined as a sudden calamitous emergency event bringing great damage, loss, or destruction. Disasters may occur with little or no advance warning, e.g., an earthquake or a flash flood, or they may develop from one or more incidents, e.g., a major wildfire or hazardous materials discharge.

○ Disasters are either single or multiple events that have many separate incidents associated with them. The resource demand goes beyond local capabilities and extensive mutual aid and support are needed. There are many agencies and jurisdictions involved including multiple layers of government. There is usually an extraordinary threat to life and property affecting a generally widespread population and geographical area.

○ A disaster's effects last over a substantial period of time (days to weeks) and local government will proclaim a Local Emergency. Emergency Operations Centers are activated to provide centralized overall coordination of jurisdictional assets, departments and incident support functions. Initial recovery coordination is also a responsibility of the EOCs.

**Disease Outbreak (Pandemic)**

**WARNING**

The Santa Clara County Public Health Department (SCCPHD) is the local authority on disease outbreak. The District will follow the direction, policies and procedures of the Santa Clara County Public Health Department regarding any disease outbreak impacting the District.
An outbreak of disease could significantly interrupt normal District functions for a time period determined by the SCCPHD and may require closure of a District school site or sites.

ASSUMPTIONS

The impact of a disease outbreak is unknown. The following influenza pandemic assumptions were utilized in the development of the Plan:

- Up to 30% of the workforce could be out sick during a pandemic.
- People may decide to stay home to care for family members and/or are afraid of exposure;
- Flexibility will be necessary and might include expansion of physical space between workstations/learning stations (social space) or allowing employees/students to participate from home (if possible);
- Employees may need personal protective equipment (PPE) to maintain critical services;
- Assistance from outside organizations or levels of government will be unlikely if the outbreak is nationwide;
- The District may be closed because of staffing shortages, a community quarantine or direct order of the Santa Clara County Health Department and/or California Department of Education

ACTION PLAN

1. Planning, Communication and Surveillance:

- Communicate planning and general public health information to the District community
- Maintain a reasonable amount of medical and other supplies on school site; this and other internal procedures in the Health Center will be implemented
- Monitor World Health Organization (WHO), Centers for Disease Control (CDC) and state/local health agencies for information regarding influenza and/or other activity
- The Student Services Department will coordinate the tasks outlined below

2. Pandemic Flu or Other Outbreak Identified:

- Monitor World Health Organization (WHO), Centers for Disease Control (CDC), and Santa Clara Public Health Department agencies for information.
- Centers for Disease Control (CDC) precautionary health procedures will be reviewed with staff and students.
● The district will implement Centers for Disease Control (CDC) guidelines for staff and students returning from affected areas.
● Communicate specific District and public health information to the District community.
● Increase stock of supplies needed to provide care in the event of a local outbreak.

3. Pandemic Flu or Other Outbreak Present at the District or in the local community:

● Monitor World Health Organization (WHO), Centers for Disease Control (CDC), state and Santa Clara Public Health Department agencies for information regarding influenza and/or other activity
● Implement health guidelines or executive orders as directed by the Santa Clara County Public Health department or other government officials
● Students, staff, and volunteers with illness should stay home until 24 hours AFTER they’ve stopped having fever without the use of medication or follow current Centers for Disease Control (CDC) guidelines.
● Monitor and keep records for flu activity and severity in the District community.
● Participate in state and local health agency efforts to distribute national supply of vaccine, antiviral medication for prophylaxis and treatment.
● Communicate disease recognition and management, personal protection, social distancing, quarantine and isolation information to the District community.
● Consider limited or suspended District operations and communicate to the District and external community as determined by the superintendent in conjunction with the County Public Health Department (See Emergency Response Planning statement below).
● Implement quarantine and isolation measures for those exposed/ill with influenza or other conditions.
● Provide health services and essential services for those who remain on school sites.

4. Recovery:

● Monitor World Health Organization (WHO), Centers for Disease Control (CDC), state and local health agencies for information regarding influenza or other conditions.
● Prepare for possible further waves of influenza or other condition activity and return to step 2.
● Decide to (partially or fully) resume District operations and at what level using the district reopening matrix
● Communicate specific District and public health information to the District community.

District Communication and Notification Process
Emergency Response Planning Statement

The District updates plans for a wide variety of potential disasters annually. In light of the damage that natural disasters have caused in this country during recent years, as well as international concern about the potential for a pandemic outbreak of avian flu, it is important that the District have comprehensive plans in place that might include closing the school site entirely for a period of time. Therefore, we share the following information with you:

- Should the District be faced with such an eventuality, the District would have little time to debate the matter, especially in the case of a pandemic. After consulting with governmental health agencies and Santa Clara County Health Department officials, the District could conceivably be directed by these authorities to immediately enter into a we believe a carefully orchestrated response as outlined will help protect students and others in the community.
- If the District is determined to be closed, the District will send to staff, students, and families via e-mail, voice mail, district notification systems, and through posted information on the website. It is each person’s responsibility to monitor these information sources regularly.

Floods: Student Release; Leave Building; Site Evacuation; Convert School

- **Warning:** Method of alert may be by telephone, radio, or messenger.

The extent and time before a flood arrives will dictate the course of action. The Principal, Campus Incident Commander, will initiate or be called upon to initiate one or more of the following action procedures:

- Provide care of students at school
- Execute “Student Release” procedures
- Execute “Leave Building” procedure
- Execute “Site Evacuation” procedure
● Execute “Convert School” procedure
● Notify the Superintendent’s office, District Incident Commander.
● Report all damage requiring emergency repair to the Buildings and Grounds Department.

Initiate Crisis Intervention Plan, if necessary.

Fallen Aircraft

● **Warning**: Usually by sight, sound, or fire.

The Principal, Campus Incident Commander, shall determine which Action, if any, should be implemented. When necessary, teachers will take immediate action for the safety of students without waiting for directions from the Principal, Campus Incident Commander.

● All students and staff shall be kept at a safe distance (300 feet), allowing for possible explosion of fuel tanks or ordinance.
● If possible, the Principal, Campus Incident Commander, shall determine whether the aircraft is military, commercial, or a private plane.
● Notify 911 and the Superintendent’s office, District Incident Commander.

Initiate Crisis Intervention Plan, if necessary.

Windstorm or Tornado: Drop, Cover, and Hold and/or Remain Alert

● **Warning**: Will be received via telephone, radio, messenger, and/or P.A. system. Occasionally, the National Weather Service will issue a statement saying that “funnel clouds” have been sighted. This in itself is not a tornado warning and no specific actions are usually required, and staff should remain alert for further announcements. The following watches and warnings may be received:

  ○ **Severe Thunderstorm or Tornado Watch** (winds exceeding 55 mph): Remain alert for additional weather advisory
  ○ **Severe Thunderstorm or Tornado Warning**: Immediate seek safe shelter
  ○ During school hours with little or no advance warning, the following actions are to be accomplished:
    ■ Implement “**Drop, Cover, and Hold**” procedure
    ■ Remain near an inside wall
    ■ Avoid structures with large roof spans, if possible
    ■ Evacuate classrooms bearing full force of winds, if possible
    ■ Tune to local radio stations for latest advisory
    ■ Take roll
    ■ Notify the Buildings and Grounds Department of any break or suspected break, involving utilities, or notification of any needed emergency repairs.
Notify Superintendent’s office, *District Incident Commander* of damages or injuries.

Initiate Crisis Intervention Plan, if necessary.

Initiate Crisis Intervention Plan, if necessary.

**Bomb Threat**

- **Receiving A Bomb Threat Call**
  - Stall the caller and obtain as much information as possible. (See Bomb Threat Checklist)

- **Receiving a Bomb Threat Message**
  - Avoid telling or alarming students, if at all possible
  - Notify 911 and the Superintendent’s office, *District Incident Commander*
  - Please Note: Cellular phones and walkie-talkies should not be used during bomb threats as they may activate an explosive device. However, using hardwired public address systems is permissible.

In the event of a bomb threat, the principal, *Campus Incident Commander*, may implement “Leave Building” procedure. Caution all everyone against picking up any strange object; it could be a bomb.

Buildings are not to be used until they have been inspected and declared safe. Avoid publicizing a “scare”. Initiate Crisis Intervention Plan, if necessary.

- **School Response**: Immediately turn on the radio and/or television to listen for essential emergency information.

Hostage Situation

The greatest danger in a hostage situation is the actual process of being taken hostage and the first fifteen minutes afterwards. If a hostage survives this period of time, the probability of survival is good.

- **If schools are in session, observe the following procedures:**
  - Isolate the affected area
  - Evacuate all classes to the most distant part or a secure area of the campus.
  - Principal, Campus Incident Commander, will call 911 and Superintendent’s office

● **If part of a hostage group:**
  ○ Do exactly as the suspect demands. Do not resist!
  ○ Avoid antagonizing the suspect.

  ○ Move students to one side or the end of the room.
  ○ Keep students very quiet and low to the floor
  ○ Ignore all conversations between negotiators and suspect
  ○ Be prepared for the utilities being turned off

● Do not move until told to do so by an authorized official
● The Principal, *Campus Incident Commander*, will implement “Student Release” procedure

Trauma

In the event of a serious injury or fatality involving a student, several students or a staff member, the following procedure is designed to assist students and staff to cope with the situation or loss.

Principal will notify the Superintendent's office and take appropriate action. The Superintendent may activate sections of the Emergency Disaster Plan.
Day of a tragedy
- Administrators and counselors are to lend help to students and staff who need support
- An upset student is not allowed to leave school
- Keep a list of students with depressed or emotionally uncontrolled behavior
- Contact parents to pick up students who are unable to deal with their emotions and should go home to a supervised situation
- Arrange individual and group meeting areas for students to talk to counselors

After the tragedy
- Schedule meetings, as necessary for staff to update and share information on the event, and to give support and caring to each other
- Identify distraught students for special assistance
- Get the classes back on track

Utilities Failure
Failure of one or more of the utilities (electricity, gas, and water) constitutes a condition that must be dealt with on a situational basis. The school should remain in operation if at all possible and students shall be cared for until regular dismissal time.

Principal
- Shall call the Superintendent’s Office to provide information about the problem, sections of the site affected, and all other pertinent information.
- Inform the Director of Buildings and Grounds and they will call the utility company if necessary and appropriate.
- Advise the faculty and staff of the problem and what actions are being discussed

Staff
- Do whatever is possible to keep students and staff warm, dry, and safe until contingency plans are implemented.

The Superintendent shall determine what will be done at the site to protect the welfare of the students and staff, including decisions about the following:
- Relocation of student and staff to finish out the school day
- Transportation needs and deployment
- Food Service requirements
- Notification of parents
- Involvement of the media
- Notify the presidents of the Cambrian District Teachers and California Schools Employee Associations.
• **Water Service Failure**
  ○ Sanitation becomes a problem after approximately 2 hours of interrupted water service.
  ○ If you anticipate a shut down of water for that long, maximize the use of sanitary facilities to the extent possible.

• **Electrical Service Failure**
  ○ Contingency plans to be considered will depend on the time of year; the amount of natural light available in classrooms, the outside temperature, and the length of time electricity is expected to be off
  ○ During short duration failure, classes will necessarily have to alter classroom work schedules due to the lack of electrical current
  ○ Several flashlights should be available for use during times when emergency lighting has failed or is inadequate

• **Gas Service Failure**
  ○ Gas Service is a primary source of heat; therefore, in most instances, the outside temperature will dictate what will need to be done to keep the school in operation and the students and staff warm.
  ○ If a gas leak creates a danger of explosion, the actions described under “Threat of Explosion” should immediately be implemented.

**Smog Alert**

When air quality standards exceed a reading of 200 PSI, the County authorities will issue Smog Alerts. Schools will follow the directives issued by the Superintendent’s office.

**Routine Emergency Disaster Drills**

Cambrian School District practices the following drills routinely. The principal or designee shall keep a record of each drill conducted on the Emergency Drill Report form and file a copy of the record with the office of the Superintendent or designee.

**Earthquake**

To ensure that students and staff are aware of, and properly trained in, the earthquake emergency procedure system. (Code of Regulations, Section 35297)

• **Standards for a Successful Earthquake Drill**
  ○ Ensure the earthquake alarm can be heard by all staff and students
Immediately after the earthquake alarm sounds, all students, teachers and other employees shall begin the Drop, Cover and Hold procedures. Evacuations shall occur when directed over the loud-speaker by the Principal or designee. Once the room is evacuated the doors should be closed. Teachers are to take roll once in the evacuation area. Upon sounding of “all clear” students and staff will return to their appropriate classrooms. Teachers will take roll once more and missing students are reported to the attendance office.

Fire

Fire drills are to be held at least once a month using the Evacuate Site procedures. (Education Code 32001)

The principal shall notify staff as to the schedule for the fire drills and ensure that staff is ready at any time for an unannounced fire drills. Both scheduled and unannounced Fire Drills shall be conducted each school year.

- Standards for a Successful Fire Drill
  - Fire Alarm can be heard by all staff and students.
  - Orderly evacuation begins immediately after confirmation over the loudspeaker for evacuation and is completed within 5 minutes of the initial alarm, with minimal congestion at exit gates.
  - Once the room is evacuated the doors should be closed.
  - Teachers shall ascertain that no student remains in the building.
  - Teachers and students are staged in an orderly fashion away from fire lanes.
  - Teachers are to take roll once in the evacuation area. Any missing students are immediately reported to the Principal or designee.

Lockdown

Lockdown drills are to be conducted annually and take no longer than 40 minutes and impact instructional class time by 20 minutes.

- Every other year drills are to be conducted with local police present (or annually, if the local police department has the resources to support the drills). Drills need to be scheduled with your School Resource or Liaison Officers.

- **Standards for a Successful Lockdown or Code Red**
  - Conduct a staff meeting with a 20-minute timeframe to review expectations and standards in terms of:
    - Locking doors
    - Covering windows
    - Turning off lights
    - Building interior barricades
    - Reviewing classroom and all clear procedures
    - Reviewing off site evacuation locations

- Send a follow-up reminder memo to your staff
- Organize your assessment team. This provides an excellent opportunity for an ICS team to work together with police participants in the drill.
- Conduct the assessment and report back to staff
- Complete follow-up tasks
Evacuation

An evacuation should NEVER be automatic. There may be more danger outside the building than there is inside. If administrative directions are not forthcoming, the teacher will be responsible for assessing the situation and determining if an evacuation is required.

- Designated evacuation routes shall be posted in each room.
- Teachers shall be prepared to select alternate exits and direct their classes to these exits in the event the designated evacuation route is blocked.
- Evacuation areas will be established away from fire lanes.

- Standards for a Successful Evacuation
  - Predetermine evacuation areas
    - They should be in open areas, without overhead hazards and removed from potential danger spots (covered walkways, large gas mains, chain linked fences [electric shock potential]). will differ from a fire evacuation route, and that appropriate non-hazardous alternate routes may be needed.
  - Practice evacuation using alternate routes to the assembly areas.
  - Students are to remain with their teacher in the evacuation area.
  - Teachers shall take their roll books and take roll once in the evacuation area and be prepared to identify missing students to administrators and first responders.

The principal or designee shall keep a copy of each drill conducted on the Emergency Drill Report form and file a copy with the Superintendent/designee.

Section 6

Expected Behavior, School Discipline, Suspensions, and Expulsions

Sartorette’s Expected Behavior

Our motto for school-wide behavior expectations is:

Be Safe  Be Responsible  Be Respectful

In order to provide an effective learning environment for all students, Sartorette staff works in collaboration with students and parents to provide a predictable, positive, safe, and consistent school environment.

Students who engage in inappropriate or disruptive behavior, fail to follow classroom or school rules, or refuse to abide by the directions of school officials while at school will be subject to disciplinary actions by their teachers and/or school administration.

Students who harass, bully, or otherwise intimidate other students shall be subject to appropriate discipline, up to and including counseling, suspension, and/or expulsion.

School Wide Recognitions and Awards

- Caught Being Good Awards: school wide morning assembly with student recognition
- PBIS tokens
- Super Star Bucks

Sartorette School encourages and recognizes positive behavior toward self and others at our monthly student assemblies. Monthly school assemblies are held to highlight positive actions within classrooms that demonstrate the Sartorette motto and Character Traits associated with Project Cornerstone and Sartorette’s Life Skills such as honesty.
Positive Behavior Intervention System (PBIS)

At Sartorette we have developed a systematic approach to establishing the positive social culture and behavioral supports needed to support an effective learning environment for all students. We have a three-tiered approach:

**ALL Students-Primary**
- Consistent expectations
- Consistent school wide lesson plans-common areas
- Common understanding-Major/Minor behaviors
- Consistent Referral Process
- Positive Environment-Regular Recognition

**Secondary and Tertiary**
- Check-In-Check-Out
- Individualized Behavior Plans ( tiered approach)
- Intervention Team
- Possible Student Study Team

What is PBIS - Positive Behavior Intervention Supports?

- Building a positive school-wide social culture
- Evidence-based practice for supporting and building a positive social culture
- Supporting and incorporating asset-building work of Project Cornerstone and character focus of Life Skills
- Defined by our school's needs
- Creating learning environments that are: Predictable, Consistent, Positive, Safe
- School-wide PBIS is a delineation of behavioral expectations to all community members in a clear, consistent way in order to create an effective social and educational setting for all students. We ask that all students and adults practice our behavioral expectations while on campus.
- The Lifeskills - throughout the school year, we provide opportunities for all students to practice 16 specific “lifeskills” through a direct, systematic and positive focus.
- The goal of the program is to empower students to become positive and productive members of their school and community by improving social relationships, fostering mutual cooperation, and developing a sense of self to make healthy life choices. Each week, we focus on one
lifeskill and students from each class are recognized for demonstrating those life skills at our Weekly Friday school spirit morning assembly on the blacktop.

- Caring - to feel and show concern for others
- Common Sense - to use good judgment
- Cooperation - to work together toward a common goal or purpose
- Courage - to act according to one’s beliefs despite fear of adverse consequences
- Curiosity - a desire to investigate and seek understanding of one’s world
- Effort - to do your best
- Flexibility - to be willing to alter plans when necessary
- Friendship - to make and keep a friend through mutual trust and caring
- Initiative - to do something, of one’s own free will, because it needs to be done
- Integrity - to act according to a sense of what’s right and wrong
- Organization - to plan, arrange, and implement in an orderly way; to keep things orderly and ready to use
- Patience - to wait calmly for someone or something
- Perseverance - to keep at it
- Pride - satisfaction from doing one’s personal best
- Problem-solving - to create solutions to difficult situations and everyday problems
- Resourcefulness - to respond to challenges and opportunities in innovative and creative ways
- Responsibility - to respond when appropriate; to be accountable for one’s actions
- Sense of Humor - to laugh and be playful without harming others

    - Enter the playground no earlier than 7:50 am, when supervision begins

  - At times we are able to apprehend the vandals and bill their parents/guardians for the damages
  - You (students and parents) can greatly assist us by helping to patrol the school when possible and reporting any known vandals to the school.
  - Money spent on repairs due to vandalism takes away money that could be used on educational equipment and materials.

- Personal Property
  - Students must take care of any personal items, including money, brought to school. Sartorette is not responsible for the loss of personal items.
General Procedures for Dealing with Problem Behaviors

- Observe problem behavior
- Problem solved by student “Stop-Walk-Talk”
- Problem Identified as Minor or Major

A teacher, vice principal, principal, or any other certificated employee of a school district, shall not be subject to criminal prosecution or criminal penalties for the exercise, during the performance of his duties, of the same degree of physical control over a pupil that a parent would be legally privileged to exercise but which in no event shall exceed the amount of physical control reasonably necessary to maintain order, protect property, or protect the health and safety of pupils, or to maintain proper and appropriate conditions conducive to learning."

Cambrian School District’s Expected Student Behavior

Cambrian School District students are expected to Obey the State, District, and local school regulations, in addition to showing respect for self, authority, property, both public and private, the rights of others, the feelings of others and education. Students are responsible for their own actions and should accept the consequences of their own actions. Therefore students should be aware of the possible consequences of their behavior. (Education Code 35181 and Cambrian Board Policy 5144)

Students who exhibit problem behavior will be subject to disciplinary action by school officials. Depending upon the behavior, one or more of the following actions may be taken by school officials. The action taken will be in compliance with Board policy and State law.

The following information is intended to present our school rules and regulations clearly. Please read this carefully. All students are expected to understand and follow these guidelines. Students found to have committed the acts listed under the column Behavior can expect to be assigned any of the consequences under the column Possible Action.

It should be noted that there might be degrees of severity and/or previous patterns of behavior that will influence the actions. The school administrator will use his or her discretion in determining those consequences.
The Guidelines for Student Behavior lists the possible action that may be taken in relation to behavior that violates the Code of Conduct.

Education Codes 48900-48915 and Cambrian Board Policies and Procedures 5144-5144.1
Disciplinary Procedures

The procedure listed below is a general guide of the order in which disciplinary action is taken. The nature of the disciplinary problem may alter the sequence of items.

- Documented routine classroom control procedures
- Documented teacher-student conference
- Documented teacher-parent conference
- Referral to principal. (Principal or designee shall determine developmentally appropriate, progressive discipline.)
- Referral to each school Student Study Team comprised of administrator, teacher(s), special education representative, and others as necessary
- Suspension
- Expulsion

The law requires the Board to review and take a position on certain disciplinary procedures. Accordingly, the Board authorizes the use of the following procedures:

- **Use of Detention**: Students may be detained in school for disciplinary or other reasons for up to one hour after the close of the maximum school day.

- **Use of Recess or Break Time**: A teacher may restrict, for disciplinary purposes, the time a student is allowed for recess providing the student’s physical needs are met. Discipline is related to behavior that is disruptive; it is not directly related to academic performance, i.e. incomplete work, etc. A teacher may suggest that a student use recess or noontime intermission for a student-determined study session.

- **Restriction of Activities**: The school has the right to restrict a student from extra-curricular and/or special events.

- **Use of Physical Restraints**: Teachers are required to hold students strictly accountable for their conduct on the way to and from school, on the playgrounds, and during recess, and are not criminally liable for exercising the same degree of physical control over a student that a parent would be legally privileged to exercise in order to maintain order, protect property, or protect the health and safety of students, and maintain proper and appropriate conditions conducive to learning. A staff member shall physically control a child only to the extent necessary to protect the child, other students, the staff member, and other staff members.

Definition Of Disciplinary Actions

- **Parent Involvement** – Parent/guardians are notified by telephone, personal contact, letter or certified letter. A conference may be conducted between the student, his/her parent/guardian, appropriate school personnel and any other individuals concerned. Recorded in the administrative record. A student performance contract may be used.
● **Conference** – A formal conference is held between the student and one or more school officials. During this conference, the student must agree to correct his/her behavior. Recorded in the administrative record.

● **Detention** – Students may be detained in school for disciplinary or other reasons for a maximum of one hour after the close of the school day.

● **Pre-suspension Alternatives** – The temporary removal of a student from certain instruction. A student may be assigned to an advisement teacher, a student assistance program, or the student may lose a privilege, an extra-curricular activity, or be requested to provide school service.

● **In-School Suspension** – A temporary alternative setting that removes students from the classroom for a period of time, while still allowing students to attend school and complete their work. A student may be assigned to an in-school suspension program at the discretion of the principal or designee for offenses for which suspension is permitted.

● **Suspension** – The temporary removal of a student from ongoing instruction.

● **Expulsion** – Is the removal of a student from ongoing instruction in the district for a specific length of time. Pursuant to State law and District policies, the principal of a school may recommend or be required to recommend expulsion of a student, but only the Governing Board may expel a student.

● **SARB** – School Attendance Review Board. The SARB enforces compulsory education laws. It is comprised of parents, representatives from the school district and members of the community at large, including representatives from law enforcement, welfare, probation, mental health, various youth service agencies and the district attorney’s office (membership identified in Education Code 48321). The SARB recommends alternative solutions to alleviate circumstances that contribute to truancy, attendance or behavior problems.

**Suspension**

**Suspension Procedures**

Administrative suspensions shall be initiated according to the following procedures:

● Prior to a suspension recommendation the principal or designee shall promptly initiate an impartial investigation. In so doing, he/she shall talk individually with:
  ○ The student who is complaining
  ○ The person accused
  ○ Anyone who witnessed the conduct
  ○ Anyone mentioned as having related information
A suspension shall only occur when documented other means of correction fail to bring about proper conduct unless the principal or designee determines that an offense, which requires a mandatory suspension, was committed or that the pupil’s presence causes a danger to persons or property or threatens to disrupt the instructional process.

Suspension shall be preceded by an informal conference with student and principal or designee of the principal and, whenever practicable, the teacher, supervisor, or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him/her. The student will be allowed the opportunity to present his/her version and evidence in his/her defense.

This conference may be omitted if the principal or designee determines that an “emergency situation” exists. An “emergency situation” involves a clear and present danger to the lives, safety or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student’s right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such a case, the conference shall be held as soon as the student is physically able to return to school.

All requests for student suspension are to be processed by the principal or designee of the school in which the student is enrolled at the time of the misbehavior.

At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. This notice shall state the specific offense committed by the student.

Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matter.

Student may be suspended no more than five (5) days for each disciplinary action. A student may be suspended from school for no more than 20 school days in any school year, unless for the purposes of adjustment a student enrolls in or is transferred to another regular school, an opportunity school, or a continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days does not apply when the suspension is extended pending an expulsion.

A suspended student may be required to complete and receive credit for assignments and tests missed during the suspension, as provided by the teacher.

A suspended student must remain under parent supervision and cannot be on any school campus or attend school activities for the duration of the suspension. This does not include In-School Suspension. (Education Codes 48900-48918 and Cambrian Board Policy and Procedure 5144.1)
Expulsion

Expulsion Procedures

● Prior to an expulsion recommendation the principal or designee shall promptly initiate an impartial investigation. In so doing, he/she shall talk individually with:
  ○ The student who is complaining
  ○ The person accused
  ○ Anyone who witnessed the conduct
  ○ Anyone mentioned as having related information

● The principal submits a written recommendation to expel the student to the Superintendent. When expulsion is being considered, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision in the matter.

● Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. Extension of the suspension may be made only if the Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student’s presence at the school or at an alternative school would endanger persons or property or threatens to disrupt the instructional process.

● The student and student’s parent/guardian shall be entitled to a hearing to determine whether the student should be expelled. An expulsion hearing will be held within 30 school days after the date the principal determines that one of the acts listed under “Grounds for Suspension and Expulsion” has occurred. Written notice of the hearing will be forwarded to the student and student’s parent/guardian at least ten days prior to the date of the hearing.

● An administrative panel will conduct a hearing to consider expulsion in a session closed to the public unless the student or student’s parent/guardian requests that the hearing be public.

● The final action to expel will be taken by the Governing Board at a public meeting within ten school days following the conclusion of the Administrative Panel hearing.

  If the Governing Board does not meet on a weekly basis, its decision on whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed.

● Written notice of the decision to expel shall be sent to the student and parent/guardian and shall include notice of the right to appeal such expulsion to the County Board of Education. (Cambrian Board Policy and Procedure 5144.1)
Mandatory Recommendation for Expulsion

- Possessing an explosive as defined in 18 USC 921.

Zero Tolerance

The Cambrian School Board of Trustees supports a zero tolerance approach to serious offenses in accordance with state and federal law. This approach makes the removal of potentially dangerous students from the classroom a top priority. It ensures fair and equal treatment of all students and requires that all offenders be punished to the fullest extent allowed by law. Staff shall immediately report to the Superintendent or designee any incidence of offenses specified in law, Board policy and administrative regulation as cause for suspension or expulsion.

Zero tolerance requires a mandatory suspension and recommendation for expulsion of students who possess, sell or furnish a firearm, brandish a knife, sell a controlled substance, commit or attempt to commit a sexual assault or sexual battery, or possess an explosive. (Education Code 48915) (Education Codes 48900-48918 and Cambrian Board Policy and Procedure 5144.1)

### Dress Code

The Governing Board believes that students and staff have the constitutional right to be personally safe and secure in a safe and disciplined learning environment at school. The Board also believes that appropriate dress and grooming contribute to a productive, safe and secure learning environment. Therefore, the Board expects students to wear clothing suitable for the school activities in which they participate.
Students and parents/guardians shall be informed about dress and grooming standards at the beginning of the school year and whenever these standards are revised. A student who violates these standards shall be subject to appropriate disciplinary action, including being sent home.

Appropriate Attire

The home is the most encouraging environment for setting appropriate appearance standards. While we recognize the importance of individual expression, there clearly are certain styles that are not conducive to an educational environment. Students are expected to comply with the following:

- A student's hairstyle, clothing, jewelry, and makeup should not distract others from learning.
- Clothing with printed vulgarities and/or drug and alcohol-related themes are not acceptable.
- Skin-tight apparel, excessively baggy apparel, short shorts, bare midriffs, mini skirts, and loose-fitting tank tops are not appropriate.
- Students must wear shoes at all times.
- No hats, beanies or hoods will be worn on campus. In support of the new state law to permit students to wear sun protective clothing to school, a student may wear a hat, if that student has a letter on file from his/her parent requesting a hat be worn for sun protection. Hats may not be worn indoors.

If a student's information has changed the parent or guardian shall call the office and update their records (e.g. ihome address, work location, or telephone) If families have moved outside the Cambrian School District attendance boundaries, a charter request form or an interdistrict attendance agreement from your resident district is required. If a student leaves without proper permission, that student will be considered truant and the police may be called.
Students shall be released during the school day only through the school office. A signout procedure is established and students may only be released to his parent/guardian or designee listed on the emergency card.

Children will only be released to an adult (person over the age of 18) and listed on their emergency card on file. Identification is required. It is the only means the staff can verify your authorization of designated friends or family members picking up your child. Without such verification, staff cannot release a child under any circumstances.

Investigation of Complaints at School

Sexual harassment requires prompt attention by administrators since the failure to act may cause further personal damages to the alleged victim. Further, the issues involved are typically very personal and sensitive, and many victims will not risk the delays, publicity and complications attendant to regular grievance procedures. Since the Cambrian School District recognizes the delicate nature of such situations, each step in the complaint procedure will be conducted with discretion in order to maintain a high degree of confidentiality. It is the intent of the procedure to result in prompt recourse and to ensure fairness and equity to the student alleging the sexual harassment, the person accused of the sexual harassment, and witnesses.

Students
● A student who believes he/she is being sexually harassed should notify his or her site principal.
● Site principals are required to immediately report complaints of sexual harassment to the Superintendent or any member of the investigative team. Whenever a complaint of harassment occurs, the person receiving the complaint shall promptly and fully inform the alleged victim and the parents or guardians of their rights pursuant to this policy and current law.

● If the principal or member of the team believes the complaint can be resolved through informal means, then every effort will be made to do so.

● Investigation of Students
  ○ Any complaint involving allegations of sexual harassment of a student by another student(s) shall be processed informally
  ○ If an informal resolution will not resolve the problem, student perpetrating the harassment may be recommended for suspension or expulsion

    ■ The purpose is to determine whether an informal resolution of the problem is possible.
    ■ The complainant will be advised in advance of the date and time that the accused will be informed of the complainant's complaint, and will be given an opportunity to be away from the school site when the accused is informed of the complaint.
    ■ The accused will be explained his/her rights pursuant to this policy, at the earliest appropriate time, and will be immediately informed that any retaliation against the complaint and witnesses is strictly prohibited, regardless of the accuracy of the complaint.
    ■ The team shall then inform the person alleged to have committed harassment of the complaint and explain his/her rights pursuant to the policy. The team will also endeavor to obtain all possible information from the individual named by the complaint.
    ■ The team shall make a written determination regarding the acts and whether sexual harassment did occur. This determination will be communicated to the complainant and the parents or guardians, the alleged harasser, and as appropriate, all others directly concerned.
    ■ A written report of the information investigation, signed and dated by the person accused of harassing, will be filed with the team by the supervisor or member of the team. The signature of the accused on the report is merely an indication of receipt of the report of a written complaint. The purpose of this report is to document the resolution of the complaint at the informal level.

○ Formal Investigation
○ Once a written complaint of sexual harassment has been reviewed by the investigative team and if the team determines a formal investigation is necessary, a complete and thorough investigation shall begin immediately.
○ The complaint will be resolved by this investigation, which shall also include gathering information from witnesses to the incident, if any, and from victims if any of similar conduct.
○ The complainant will be advised in advance of the date and time that the accused will be informed of the complaint, and will be given an opportunity to be away from the school site when the accused is informed of the complaint.
The accused will be explained his/her rights pursuant to this policy, at the earliest appropriate time, and will be immediately informed of the complaint.

○ The investigative team shall make a written determination regarding the acts and whether the sexual harassment did occur, and this determination will be communicated to the complainant, the alleged harasser, and as appropriate, all others directly concerned. If, after the investigation, the investigative team shall be expunged of all relevant documents. However, if the investigative team makes a finding that the sexual harassment did in fact occur, the alleged harasser shall have the opportunity to respond to this written determination prior to placement in his/her file.
○ If the alleged harasser is determined to have engaged in sexual harassment, appropriate disciplinary action is recommended by the Superintendent or his designee may be taken by the District. The discipline that will be appropriate will be determined in part, by the severity of the facts and whether or not the harassment is of chronic nature. The employee against whom disciplinary action is taken shall be entitled to due process provided by law, Board policy and current employee agreements. The disciplinary action will be made known to the complainant and parents or guardians when final. Appropriate action will be made known to the complainant when final.
