---

To all current and future utilizers of CSD Properties:

We are proud that Cambrian Schools have been able to host community organizations and events for many decades. These arrangements have proven beneficial for students, staff, families and our neighbors, and have exposed our students to opportunities to which they may never have access to otherwise.

The heavy and consistent use of the properties, conversely, has implications for the maintenance of facilities and land. The primary purpose of all CSD properties and facilities is to serve as a health and comfortable learning environment for our students. To ensure our facilities are able to serve that purpose for many years to come, the Board of Trustees has discussed and approved a rental fee schedule (see following page for details) for the use of all CSD properties.

We are very conscious and appreciative of the many groups that have a long history utilizing the facilities/fields and have taken excellent care of the property while doing so. For those organizations who have put much time and money into the maintenance of the facilities they use, we would like to speak personally with each of you to see what adjustments can be made. Please contact me at [browningj@cambriansd.com](mailto:browningj@cambriansd.com) to set up an appointment.

Cambrian has a convenient online portal to streamline authorization for use of our facilities and fields. We will be in contact about this and other developments and appreciate your continued partnership in providing enriching experiences for all Cambrian students and families.

Sincerely,

Jim Browning  
Director of CSD Buildings and Grounds
