

NORMS

- 1) No talking outside your team.**
- 2) Discuss questions with your team before calling the teacher over.**
- 3) Within your team, keep your conversation on math.**
- 4) Explain and justify your ideas; give statements and reasons.**
- 5) You must try to help anyone in your study team who asks.**
- 6) Helping your teammate does not mean giving answers. Help by giving hints and asking good questions.**
- 7) No one alone is as smart as all of us together. Do not leave anyone behind or let anyone work ahead. Your team is not done until everyone is done.**
- 8) Clear off tables (or desks) before getting to work so you can see everyone's paper.**
- 9) You must use study team voices.**
