Notice of Steindorf K-8 S.T.E.A.M School Construction

Steindorf Tenants and Neighbors,

We would like to inform you that construction mobilization has started as we move forward with reopening Steindorf as a K-8 S.T.E.A.M. (Science, Technology, Engineering, Arts and Math) school starting August 2016. Not only will Steindorf be an additional school of choice for students but it will enable the district to accommodate increasing enrollment and lower classroom sizes.

We plan to start construction on May 18, 2015 and plan to complete construction on August 30, 2016. During the day construction will typically start at 7:00 AM and end at 5:00 PM. This is in accordance with local ordinances related to construction.

We appreciate you putting up with the noise and impact of the construction during this time. We have put a lot of effort into planning this construction so that it has the least impact to you and your neighbors. Please contact Will Robertson at 408-314-8851 with any issues that you may have in regards to construction at Steindorf and your concerns will be addressed immediately.

Once again we appreciate your understanding as we continue to explore infinite possibilities for learning by delivering a beautiful new school to your neighborhood.

Also, please log onto the District's website to learn more about this and various other construction projects paid for with Measure I funds approved by voters within our school district. The website is located at:
