

A Message From Dr. Andrews

June 14, 2019

Dear Cambrian Families, Staff and Friends,

THANK YOU to the entire Cambrian community for another successful year for our students. It is fitting to take a moment to reflect on how far we have come this school year and where we are headed.

I am very aware of the treasure this District is—with special families, staff and community members who have created a thriving learning environment for our students. This year has been exciting, with many great strides being made to increase student learning and achievement. To our talented Cambrian staff and tireless volunteers from within the Cambrian community, I want to recognize each of you for the boundless dedication, energy, and talent you bring to each school site. It is what happens in our classrooms, schools and community that supports our students' growth and truly makes the Cambrian School District a thriving, exceptional, and caring district. Together, we are making a tangible difference in the lives of our students, families and community.

I continue to be committed to creating a successful educational environment for every student and staff member. This summer as you enjoy a well-earned break from the classroom, I remain focused with strategic attention toward continuous improvement, developing District resources and preparing for next school year.

I am proud that this past school year a CSD 5-Year Strategic Plan was set into motion, as well as a 5-Year Technology Plan. In addition, a Bilingual Pathway and new ELA/ELD curriculum will be implemented in the 2019/20 school year. Each of these additions to our District will support our children and better prepare them for their future.

When I spoke at Steindorf's 8th grade graduation last Monday, I listened to an outstanding speech by 8th grader Tatum Lapore. She quoted the late great Dr. Seuss, telling her classmates, "Congratulations! Today is your day. You're off to great places! You're off and away!" These simple words have significant meaning, and I believe it can be applied to our

entire District. Our children, no matter what grade or what school site, ARE off to great places, and each of you reading this message have played an important role in this accomplishment.

Thank you, Cambrian, for building strong, empathetic, curious, resilient, outstanding students.

Kind Regards,

Dr. Carrie Andrews
Superintendent

CAMBRIAN SCHOOL DISTRICT
