Review: COVID-19 symptoms

- Fever (≥ 100°) or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Nausea or vomiting
- Diarrhea
- Congestion
- Runny nose

It would be unlikely for a child to experience runny nose as the only symptom of COVID-19. If a child has a runny nose but no other symptoms of COVID-19, it would be reasonable to allow that child to remain at school, provided the child does not develop any other symptoms of COVID-19.
